Detailed Action

Examiner Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Alter on December 2, 2004.

Claims 27 and 28 have been canceled.

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art teaches a computer-implemented method for managing experiments. However, the closes prior art of record (Nulman, U.S. Pat. No. 6303395 B1) fails to teach or suggest either alone or in combination the steps of "receiving an experiment order, the experiment order including at least some pre-planned deviation from a base process capable of operating in an automated environment".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims #1 through 26 and 29 through 33 are allowed.

Claim #1

- Receiving an experiment order, the experiment order including at least some pre-planned deviation from a base process capable of operating in an automated environment.
